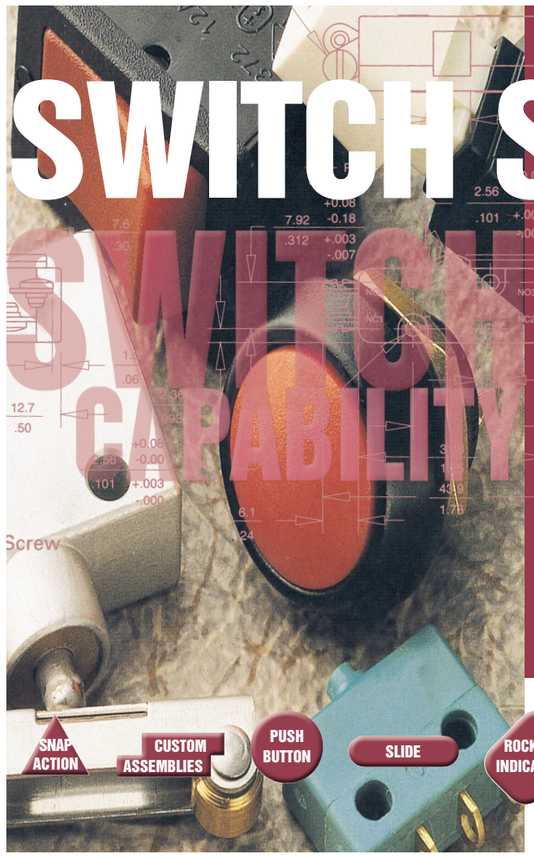
SWITCH SOLUTIONS



How do you choose a switch solution for your OEM application?

ITW makes it simple.

ITW Switches and Switchpanels has developed a wide range of products for industries such as Control and Instrumentation, Defence, Telecommunications and Domestic Appliances.

We produce as standard a comprehensive range of push button, micro, slide and rocker switches as well as customer specific switch panel assemblies. But if we don't have the ideal product in stock, we'll work with you and design one to suit your specific application.

Over 20 years, we've gained a reputation for the highest quality standards, innovative ideas and a rapid response to customer requirements.

We're also approved to ISO 9001 and can test to all British and European specifications.

Switch solution? It has to be ITW.

INTRODUCTION

ITW Switches

We are a division of a large multinational company providing a broad range of switch and switchpanel solutions for the OEM market. Our products are used extensively in a wide cross section of industries including: Automotive, Military, Telecommunications and Domestic Appliances which have earnt us a reputation for innovative ideas and rapid response.

Working with You

We are geared for customer support and strive to develop a close working relationship with our customers. If we cannot meet your requirements with a standard product, we will be pleased to develop, with you, a customised design. We offer a full technical back up service and our network of distributors and agents means we're only a phone call away.

Quality Assurance

ITW Switches is approved to ISO 9001 and capable of testing to all major British and European specifications. We regularly review our rigorous in-house test procedures to ensure that the highest standards of quality and reliability are maintained.

Using This Shortform

This shortform catalogue provides a brief overview of some of our more popular standard switch products. It by no means covers the complete range and therefore, if you cannot locate a switch or switchpanel suited to your application, please contact your nearest ITW Switches distributor who will be happy to supply you with full product information and technical specification.
